2 About amiibo

This software supports **amiibo**. You can use compatible amiibo™ accessories by touching them to the Touch Screen of a New Nintendo 3DS/New Nintendo 3DS XL system.

Your amiibo aren't just for show. You can use NFC (near-field communication) to connect them to compatible software and play with them in the game.

For more information, visit:

- amiibo.nintendo.eu (Europe)
- amiibo.nintendo.com.au (Australia/New Zealand)

- ◆ Each amiibo can only hold game data for one software title at a time. In order to create new game data on an amiibo that already has data saved on it from another game, you must first delete the existing game data. You can do this by going to the HOME Menu ⇒  ⇒ amiibo Settings.
- ◆ An amiibo can be read by multiple compatible software titles.
- ◆ If the data on your amiibo becomes corrupted and cannot be restored, go to the HOME Menu ⇒  ⇒ amiibo Settings and reset the data.

The Nintendo 3DS NFC Reader/Writer is required to use amiibo with a Nintendo 3DS/3DS XL/2DS system.

IMPORTANT

A light touch on the Touch Screen is enough for the system to detect your amiibo. Do not press the amiibo into the screen or forcefully drag it across the screen.

3 Online Features

This software allows you to compete against other players online. For more information, see the section on multiplayer features.

- ◆ For information about connecting your Nintendo 3DS system to the internet, refer to the Operations Manual.

This software supports Nintendo Network™.

Nintendo Network is an online service which allows you to play with other players all over the world, download new add-on content and much more!

Online Precautions

- If you post, send or otherwise make available any information or content through wireless communication please make sure not to include any information that can be used to identify you personally, such as your name, email address, your address or your telephone number, as others may be allowed to see such information and content. In particular, when choosing a user name or nickname for your Mii™ characters, please do not use your real name as others may be able to view your user name and the nicknames of your Mii characters when using wireless communication.
- Friend codes are a part of a system that allows you to establish a friendship with other users, so that you can play, communicate and interact with people you know. If you exchange friend codes with strangers, there

is a risk that you could receive information or messages with offensive language or inappropriate content and that strangers may see information about you that you do not want strangers to see. We therefore recommend that you do not give your friend codes to people you don't know.

- Do not engage in harmful, illegal, offensive or otherwise inappropriate activity that might cause problems for other users. In particular, do not post, send or otherwise make available any information or content that threatens, abuses or harasses other persons, infringes on the rights of others (such as copyrights, portrait rights, privacy rights, rights of publicity or trademarks) or that may make other people feel uncomfortable. In particular, when sending, posting or making available photos, images or videos displaying other people, make sure to obtain their permission beforehand. If inappropriate conduct is reported or confirmed, you may be subject to penalties such as being banned from the Nintendo 3DS Services.
- Please note that Nintendo servers may become temporarily unavailable without prior notice due to maintenance following any problems, and online services for certain software may be discontinued.

4 Parental Controls

You can use the following Parental Controls to restrict certain features of this software.

- ◆ For more information about Parental Controls, refer to the Operations Manual.

Deleting Data

To delete save data, press and hold $\textcircled{A} + \textcircled{B} + \textcircled{X} + \textcircled{Y}$ at the same time while the software is loading, before the title screen appears.

◆ **Be careful when deleting data. Once deleted, it cannot be recovered.**

- Do not repeatedly reset the system or intentionally input incorrect controls. Do not remove any Game Card/SD card inserted into the system while saving. Make sure not to get dirt in the terminals. These actions could result in permanent data loss.
- Do not use external accessories or software to modify your save data, as this can lead to an inability to progress or loss of save data. Any modification is permanent, so be careful.
