WARNING: PLEASE CAREFULLY READ THE CONSUMER INFORMATION AND PRECAUTIONS BOOKLET INCLUDED WITH THIS PRODUCT BEFORE USING YOUR NINTENDO® HARDWARE SYSTEM, GAME PAK, OR ACCESSORY.

This seal is your assurance that Nintendo has reviewed this product and that it has met our standards for excellence in workmanship, reliability and entertainment value. Always look for this seal when buying games and accessories to ensure complete compatibility with your Nintendo product.

Thank you for selecting the YOSHI’S STORY™ Game Pak for the Nintendo®64 System.
THE NINTENDO®64 CONTROLLER

The Nintendo®64 Control Stick uses an analogue system to read the angles and directions of its movement. This allows subtle control that is not possible using the conventional Control Pad.

When turning the Control Deck power ON, do not move the Control Stick from its neutral position on the controller.

If the Control Stick is held at an angled position (as shown in the picture on the left) when the power is turned ON, this position will be set as neutral. This will cause games using the Control Stick to operate incorrectly.

To reset the neutral position once the game has started, let go of the Control Stick so it can return to its centre position (as shown in the picture on the left), then press START while holding the L- and R-Buttons.

The Control Stick is a precision instrument; do not spill liquids or place any foreign objects into it.

While playing this game, we recommend you use the hand positions shown below.

By holding the controller like this, you can operate the Control Stick freely with your left thumb. Using your right thumb, you can easily access the A-, B- or C-Buttons.

Place your left index finger where it feels comfortable, but not in a position where you might accidentally press the Z-Button on the back of the controller.

To play this game, connect a controller to socket one located on the front panel of the Control Deck.

If you change the connection during the game, you may need to either press RESET or turn the power OFF to make the new connection active.

This game is designed for one player, so only one controller is needed.
**Story**

One day, it just happened...

Something terrible came to pass at Yoshi’s Island. The world became locked in a picture book! The Super Happy Tree was stolen, and this weakened all of the Yoshis. This foul crime could be the wicked deeds of none other than Baby Bowser!

On a remote spot on the island, six Yoshi eggs hatched. Stepping into the sun for the first time, they realised immediately that something was amiss! “Oh my! What are we to do?” said a Baby Yoshi to another.

After much discussion, they hatched a plan. By eating lots of fruit, they would be filled with happiness. With all of the Yoshis happy, it’s certain that the world would return to normal.

So, off they went, heading for the last page of the picture book, the castle of Baby Bowser. When they get there, they will reclaim the Super Happy Tree!

**Getting Started!**

Correctly insert the Game Pak into the Nintendo 64 Control Deck and move the Power switch to the ON position. Do not touch the Control Stick at this time. When the demo begins, press START to display the Title screen. If you press the START Button again, the Mode Select screen will appear. The first time that you play, you cannot access a level in the Trial Mode.

Use the Control Stick to move the cursor on the Mode Select screen, then enter your decision by pressing START or the A Button.

**The Options Screen**

**Audio**
Select the type of audio output that you want. Your choices are **Stereo**, **Mono** or **Headphones**. If you use headphones to listen, make sure you select **Headphones** for maximum enjoyment of the sound effects.

**Language**
Select the language that appears in the game.

**Clear Memory**
This option will allow you to clear your game data that is stored in the Game Pak memory. After selecting this option, pick which data type you want to clear. Be careful, once the data is erased, there’s nothing that you can do to restore it.

- **Continue Data** . . . . Erase the Story Mode game that is in progress.
- **Story Ranking** . . . . Erase the Story Mode rankings (scores).
- **Trial Ranking** . . . . . Erase the Trial Mode rankings (scores).
- **Erase All** . . . . . . . Erase ALL saved game data.

### Quick Exit

While playing the Story Mode, if you want to use a Yoshi of a different colour, press the L, Z, A and B Buttons simultaneously. The Yoshi you are using will be taken to the castle. After deciding whether to continue that course or begin another, select a different colour from the remaining Yoshis.
Yoshi’s Actions

**Control Stick**

- **Walk/Run**
  Tilt the Control Stick in the direction you want to go!
  Depending on how far you tilt the Control Stick, the speed will increase. If you want to go slow, tilt the Control Stick slightly.

- **Crouch Down**
  When things get dangerous, you might just want to crouch down and avoid the problem. You can walk while crouched.

- **Swim**
  When in the water, tilt the Control Stick in the direction you want to go. Yoshi doesn’t need air while swimming.

- **Push**
  Just tilt the Control Stick in the direction you want to push. Some things won’t move even if you push them.

**A Button**

- **Jump**
  If you use the Control Stick with the A Button, you can jump farther.

- **Flutter Jump**
  **Important Technique!**
  Press and hold the A Button. You’ll be able to float in the air for a while. This can be very useful.

- **Stomp’em**
  Jump on and ride the enemy. You can also step on them and defeat them too.

- **Ground Pound**
  Yoshi’s favourite move. Try this trick in many places just to see what happens.

**Hint**

- Before you start a Flutter Jump, push the Control Stick ▲ and you can get to higher places.
- When the Flutter Jump is almost over, press the A Button again at the right time and you can continuously Flutter Jump.

- **Bumber ‘Chute**
  Press and hold the A Button when you have found the little chute to glide downwards. When you release the A Button, the chute will close.
**B Button**

- **Swallow**

  **Fruit**
  Yoshis love them – just keep eating! To release fruit from a bubble, break it with an egg, then you can eat it.

  **Enemy**
  If you swallow an enemy, it becomes an egg. Be careful! Some enemies cannot be swallowed! You can carry up to six eggs.

---

**Z Button/C Buttons**

- **Throw Eggs**

  *Important Technique!*
  Press once to make the cursor appear. Move the cursor with the Control Stick to aim, then release to fire!

---

**R Button**

- **Sniff-Sniff**

  Sniff-Sniff suspicious items and the screen will zoom in. If something is discovered, Yoshi will tell you. (The more suspicious and nearer the place, the more excited he will get.) Then, pound the ground to see who or what appears!

---

**Hint**

- Control the direction with the Control Stick and press the B Button. You can aim Yoshi’s tongue in many directions.
- You can even swallow during a jump too. While jumping, push the Control Stick and press the B Button. Doing this will allow you to swallow fruit in high locations.
- Besides defeating enemies, you can throw eggs to break bubbles with fruit inside!
- If you don’t want to throw an egg, you can cancel by pressing the B Button.
- Sometimes you can throw an egg and hit coins and hearts that are far away.

---

**The Egg Cracks Open With An Explosion!**

Even when an egg doesn’t hit an enemy or fruit, it will explode where the cursor was placed. The location where the egg will crack open and explode is important. You can defeat enemies with the explosion too. With one carefully aimed egg, you can defeat enemies even at a distance. The size of the explosion will change depending on Yoshi’s Mood.

---

**The Mysterious Tulip**

If you eat a tulip, Yoshi will transform into a large egg. Aim it with the Control Stick and release it to see where it goes.
Game Modes

Did you learn how to control Yoshi? Well, what are you waiting for? Get going and try to clear all the courses. Good luck!

Story Mode

There are four courses to select from on the first page of the Course Select screen. There are six pages of adventures for you to advance through. Each of the pages has four courses, but those available for selection will depend upon your skill.

On the Course Select screen, move the cursor to the square box with the number on it you wish to play, and press START or the A Button. When you clear the course, the box turns red.

Today’s Lucky Fruit?

Before you start, you must reveal the Lucky Fruit of the day. Lucky Fruit tastes better than most other fruit. Press START or the A Button and the rotating fruit will stop to display today’s Lucky Fruit. When the Yoshi Select screen appears, choose the Yoshi with which you will play.

Collect 30 Fruit to Clear the Course

None of the courses have a “goal.” Instead, just eat lots of fruit! When you’ve collected thirty of them, the course will be clear. Fruit can be found all over the courses. Some of them are hidden – make sure to Sniff-Sniff them out! Each course has more than sixty fruit to find. Wow, that’s a relief.

Collect 30 Fruit to Clear the Course

None of the courses have a “goal.” Instead, just eat lots of fruit! When you’ve collected thirty of them, the course will be clear. Fruit can be found all over the courses. Some of them are hidden – make sure to Sniff-Sniff them out! Each course has more than sixty fruit to find. Wow, that’s a relief.
How to Play the Game

It’s difficult to collect thirty fruits, but with help from useful items and a few strange friends, you can do it. When you clear the course, Yoshi’s Mood will be displayed on the Score Screen.

**Vase**
Jump on it and push the Control Stick ▼. Wow! You will transport to another place.

**? Bubble**
? Bubble is a surprise. Hit it with an egg and just see what happens.

**Door**
Stand in front of it and push the Control Stick △. After Yoshi enters the doorway, he’ll appear in a different place.

**White Shy Guy**
You have not seen too much of him before. He doesn’t seem like an enemy though. (He knows some secrets about the Yoshi Select Screen.)

**! Ball**
If you touch it with your tongue, it’ll pull you up on top. You should find it very useful.

**Find the Special Heart!**
There are three Special Hearts hidden in each course. Each time you get one, the number of courses that you can select from on the next Course Select screen will increase. If you get three Special Hearts, you will be able to select from any of the four courses. If you want to play in every course, make sure you find all three every time!

**Miss Warp**
There are four in each course. If you see her, make sure you wake her up. (While sleeping, she cannot help you!) Jump on her to move from one Miss Warp to the next. You’ll progress in numerical order (1 to 2, 2 to 3, 3 to 4, 4 to 1.) When a Yoshi is lost, you will restart from the last Miss Warp.

**THE PAUSE SCREEN**
In both Story and Trial Modes, pressing START will pause the game and allow you to see Yoshi’s current Mood (Score). While paused, in Trial Mode, press the Z Button and START to exit the course at any time.

**Trial Mode**
The courses you clear in the Story Mode will be pasted like a sticker on the Trial Mode Course Select screen. You can then repeat the course any time you like. Place the cursor on the sticker and begin by pressing START or the A Button!

**Aim for the Highest Score!**
The objective of this mode is to get the highest score. After you clear the course, the result will be displayed on the Score screen. How many ♥’s did you get?

**Collect Points for:**
- Fruit collected
- Enemies defeated
- Coins collected
- Hearts collected
- Melons collected
- Remaining Yoshis

**Hint**
Try to eat only the same type of fruit again and again before eating a different type. Just because there is a fruit right in front of you, don’t just chow it down, take a look around first. It pays to be a bit picky.

**I’m NOT your enemy!**

**Trial Mode**
The courses you clear in the Story Mode will be pasted like a sticker on the Trial Mode Course Select screen. You can then repeat the course any time you like. Place the cursor on the sticker and begin by pressing START or the A Button!

**Aim for the Highest Score!**

**I’m NOT your enemy!**
Super Happy and Grinning Ear to Ear
Heart Fruit not only look delicious, they make Yoshi feel great. Eat a Heart Fruit, and Yoshi will become Super Happy! For a time, Yoshi will shine and can do special things. Any colour Yoshi will feel this way after eating a Heart Fruit.

Yoshi is Super Happy!

You can hit enemies and not take damage.

With a ground pound, all Shy Guys on the screen will change to Lucky Fruit and all bubbles on the screen will smash.

Yoshi tongues are 1 1/2 times as long as their bodies!

All the eggs you can throw!

Yoshi Colours
Red, blue, green and yellow; Yoshis come in many different colours. Each one has its own favourite fruit, but they all like melons.

Yoshis Like Fruit
Each Yoshi has a favourite fruit, which to them, tastes better than any other. Yet somehow, Lucky Fruit tastes even better. If you want to make Yoshi as happy as can be (and get a high score too), the melon is the best! Each melon that you eat will earn 100 ♥. Luckily, it's the most common of all the fruits.

Every Yoshi likes melons!

See below for each Yoshi's favourites. Have you seen any other colour Yoshis?

Heart Fruit
Eat six fruit of the same kind to make it appear.
Helpful Information

Shoot for the high score!
To get a high score in Trial Mode, the use of a little bit of strategy is necessary. First, determine what gives the most points!

</table>

There are other enemies or items that will give you points as well. Also, some items might not give you points but will replenish the Smile Meter.

About Saving

As each Story Mode course is cleared, your progress is automatically saved and can be continued later. Additionally, those courses will then be opened on the Trial Mode ranking screen and you can go back and play them at any time. Yoshi’s Mood (score) and name entry are saved when you clear a course in either the Story or Trial Modes.

To start a new Story Mode game, erase “Continue Data” in the Options mode.

Advice

- Eat the same fruit all the time. Try to aim for Yoshi’s favourite fruit. The best thing that you can do is to get thirty melons in a row!
- When you defeat an enemy with an egg, you get twice as many points than you would for to eating it!
- When you defeat several enemies with one egg, it increases the value by four, eight and sixteen times.

The Secret of the Smile Meter

When you have only one or two flower petals remaining, you can hit an enemy and still survive – just! However, you will be weak. When you are Super Happy, the flower petals are always in full bloom and the face will be smiling from ear to ear.

This game is compatible with the Nintendo 64 Rumble Pak (sold separately). Insert a Rumble Pak in your Nintendo 64 Controller, and it will rumble when Yoshi takes damage, Flutter Jumps, ground pounds, etc.

When you use a Rumble Pak, be careful with the following:

- Before use, make sure you carefully read the instruction booklet included with the Rumble Pak.
- Remove and insert the Rumble Pak only when the POWER switch is in the OFF position.
- Use care when handling the batteries.
