About amiibo

This software supports ♦️amiibo♦️. You can use compatible amiibo™ accessories by touching them to the NFC touchpoint (□️) on the Wii U GamePad.

Your amiibo aren’t just for show. You can use NFC (near-field communication) to connect them to compatible software and play with them in the game.

For more information, visit:
- amiibo.nintendo.eu (Europe)
- amiibo.nintendo.com.au (Australia/New Zealand)

♦️ Generally, amiibo can only hold game data for one software title at a time. In order to create new game data on an amiibo that already has data saved on it from another game, you must first delete the existing game data. You can do this by going to Wii U Menu ⇒ 用户 Settings ⇒ amiibo Settings.

However, game data created in this software can also be used with certain other software, e.g. Animal Crossing™: Happy Home Designer for Nintendo 3DS™, and vice versa. Please note that this is shared data; deleting this data will affect all other software titles used with this amiibo.

♦️ An amiibo can be read by multiple compatible software titles.

♦️ If the data on your amiibo becomes corrupted and cannot be restored, go to Wii U Menu ⇒ 用户 Settings ⇒ amiibo Settings and reset the data.
Animal Crossing™: amiibo Festival is a party game that lets you use your amiibo figures and amiibo cards! The main event is the Animal Crossing Board Game. Up to 4 players at once can use their amiibo figures to get in on the action, and in doing so can unlock a bounty of minigames to be enjoyed using amiibo cards.

**Animal Friends Join the Fun!**

Touch a compatible amiibo figure or amiibo card to the NFC touchpoint and the character will appear in the game as a playable character! If you use an amiibo card, you can't play as that character in the Board Game, but they may take up residence in the board game village.

**Customising the Plaza and the Village**

Develop the game world as you play! Build features and houses for your villagers to improve the plaza and village.
