Kirby and the Rainbow Paintbrush™ is an action game where the player draws a rainbow rope to guide Kirby™ through magical worlds made of clay. It all started when Claycia stole the colours from Dream Land in order to colour her own world, Seventopia. With the help of a magical paintbrush named Elline, Kirby makes his way through increasingly difficult stages to bring the colour back to Dream Land!

Kirby

The hero of the game. His colours were initially stolen from him, but Elline restored all of Kirby's many shades of pink. Now they're headed off on a great adventure together!

Elline

A former friend and colleague of Claycia. Elline can turn into a paintbrush and draw rainbows and other pictures. With her help, Kirby has a fighting chance to recover the stolen colours!
A talented artist. Claycia loves to create items using clay, which is a good thing. But she stole all the colours from Dream Land, which is a bad thing.

Pause Screen
Use the stylus to draw rainbow ropes for Kirby to roll along. Help him avoid enemies and other dangers, and try to make it to the end of each stage.

**Clearing Stages**

At the end of each stage is a roulette wheel featuring different items. Use a rainbow rope to guide Kirby to the item you want. You'll receive that item and clear the stage.

**Medals**

After clearing a stage, you'll receive a gold, silver or bronze medal based on the number of Point Stars you collected.

**Game Over**

When Kirby runs out of health, you'll lose one life. If you run out of health with no remaining lives, it's game over for you, and you'll be returned to the stage selection screen or main menu.

**Four Lives in a Row...**

If you lose four lives in a row on the same stage, you'll be given the option to skip to the next
stage.
All the following touch controls should be performed using the stylus.

**Use Rainbow Ropes to Guide Kirby**

Use the stylus to draw rainbow ropes on the GamePad screen. Kirby can ride these ropes and will move in the direction you drew the line.

- Draw a loop to increase Kirby’s speed.
- Ropes will disappear as time passes.

**Erasing Rainbow Ropes**

If you draw one rope over another, the first rope will disappear.

**Tap Dash**

Tap Kirby to dash. While dashing, Kirby will attack any enemies or blocks that he touches.
Once Kirby collects 100 Point Stars, he'll be able to launch into a Star Dash. Tap and hold Kirby, and then release him to perform this powerful move that will blow through enemies and even some walls!
Using Rainbow Ropes

Kirby can roll along rainbow ropes, but they have other uses too!

**Change Directions**

Kirby will reverse direction when he bumps into a vertically drawn rope.

**Clay-filled Areas**

Some areas are filled with clay. You can erase the clay by drawing a rainbow rope over them, allowing you to find hidden routes and items.

**Stop Projectiles and Protect from Dangers**

You can protect Kirby from such dangers as waterfalls and some enemy attacks.
Under Water

In the water, Kirby naturally tends to float upwards. Draw a rope over his head to guide him along his way.
You'll be able to perform a Star Dash once you've collected 100 of these. The smaller stars are worth 1, the medium stars are worth 10, and the large ones are worth 100.

If you collect a series of Point Stars all in a row, you'll receive extra Point Stars as a bonus.

you tap the buttons on your controller! If you are using a Wii Remote, use ①/②. If you are using a Wii U Pro Controller, use ④/⑥.
