

## Software update details for Splatoon ver.2.9.0

△ Indicates increase to ability      ▼ Indicates decrease to ability

The numbers in the tables reflect base stats.

### Main weapon balance changes

Dynamo Roller Gold Dynamo Roller Tempered Dynamo Roller	<p>▼ Adjusts the splash damage when flinging ink. The one-hit splat area of the central ink spray has been reduced by approximately 18%.</p> <p>△ Increases the damage done to the Rainmaker barrier when flinging ink by approximately 12%.*</p> <p><i>*As a result of the first adjustment, the total damage dealt with a single fling from these weapons has been reduced compared to ver. 2.8.0. However, this change ensures that the maximum damage done by a single fling to the Rainmaker barrier remains unchanged.</i></p> <p>▼ Increases the time before ink starts to refill after flinging ink from approximately 1.17 seconds to 1.33 seconds.</p>
---	--

### Special weapon effect duration balance changes

Bubbler	<p>▼ When not using a gear ability, reduces the effect duration from approximately 5.0 seconds to approximately 4.5 seconds.</p> <p>△ Increases the effect of Special Duration Up on this weapon from a maximum of 40% to a maximum of 60%.</p>
Kraken	<p>▼ When not using a gear ability, reduces the effect duration from approximately 6.0 seconds to approximately 5.0 seconds.</p> <p>△ Increases the effect of Special Duration Up on this weapon from a maximum of 40% to a maximum of 60%.</p>
